

Product Specification Report

3/94890002/1220

Ready-to-use liquid product for the removal of stains and mould.

MOULD & MILDEW STAIN REMOVER

Anti-mildew and sanitizer for surfaces

FEATURES:

Triple action	Can be used as a whitening agent, sanitizer and anti mould solution.
Safe	Available in an easy to use packaging, no need to dilute the product.

APPLICATIONS:

Restoring treatment to remove mildew stains and other types of algae from external and internal surfaces, cement tiles, shower curtains, tools, garden furniture, ceilings, walls, areas around swimming pools, etc.

ACTIVE INGREDIENTS:

Detergents
Chlorine bleach

SPECIFICATIONS:

Form Liquid
Color Light yellow
Odor Chlorine-like
Density (20 °C) ± 1,15 g/cm³
pH_{1%} (20 °C) ± 10,3

PRECAUTIONS FOR USE:

The product can bleach colored surfaces; a preliminary test is recommended.
For more information consult the safety data sheet.

INSTRUCTIONS FOR USE:

Mildew stain remover

Spray liberally from about 20 cm distance. The stains will disappear gradually. Rinsing with water is not necessary. To increase effectiveness, you can rub with a dry or damp cloth. Do not use for more than an hour a day. Leave for at least 12/24 hours. Mould will tend to progressively disappear.

Whitening and sanitizing treatment

Apply to the surface and rub with a sponge or damp cloth. In case of contact with food areas rinsing with water is always required. For a sanitizing action leave the product for at least 5 minutes on surface.

APPROVALS:

Registration as Biocide ongoing. R4BP3:BC-RF045992-29.

All information in this document is based on our practical experience and/or laboratory tests. Due to the multiplicity of conditions for usage and variable human factors, we recommend that you always test our products for suitability prior to use. At any time, this version of the product specification report may have been revised based on legislation, availability of the individual ingredients or newly acquired information. The current approved version is available upon request.
