HYPER CLEAN

Highly powerful cleaner for brushless vehicle washing

- HYPER CLEAN is a highly powerful cleaner for “brushless” car washing, suitable for all types of vehicles including passenger cars, lorries, taxis, buses etc.
- Immediately and effectively removes static film, exhaust gases, grime, mud, grease and deposits.
- No need to use a brush.
- Rapidly removes traffic film, oil, grease, carbon deposits and other forms of contamination from carriage exteriors and rolling stock.
- Contains amines that help to quickly remove insects.
- Cleans the car body without rubbing or brushing, degreases lorry tarpaulins (nylon or fabric) when used with a power cleaner.
- Gives excellent results.
- Produces a tight, slow collapsing foam which clings to all vertical surfaces.
- Multi-purpose product: Can also be used on unfinished aluminium, fibreglass and painted lorry panels in the recommended dilution.
- Phosphate and EDTA free, entirely biodegradable.
- Can be dissolved in soft or hard water (water softener).
- HYPER CLEAN is highly concentrated and can be diluted in a solution of up to 1:200.

USE

For use in the transport sector, in auto maintenance shops, municipal services, for refrigerated lorries, caravan retailers, naval shipyards ...

INSTRUCTIONS FOR USE

Dilute with water: Use at least a 0.5% solution (for maintenance), at most 1.5% (highly soiled). Apply onto the surface to be degreased using a power cleaner (with or without foam attachment). Work from bottom to top and let stand for a moment. Do not let the product dry. Rinse using a power cleaner with a flow of at least 11 litres per minute. Set the pressure to 75-100 bars. For large vehicles, repeat the process if necessary. In car washes, dilute the product with water to create a 0.1-0.5% solution if it is to be used on company vehicles.

SPECIFICATIONS

Appearance: Light amber liquid

Density at 20°C: $\pm 1,1 \text{ g/cm}^3$

pH: $\pm 13,5$

Scent: None

These values are not to be considered as the product's specifications.

USAGE CONDITIONS

Never leave the product dry on the body before wash-off. Undiluted product dulls the paint. Never wash in direct sunlight. For vehicles with chrome-plated plastic strips, use a concentration of 2% to prevent whitening. See the user instructions on the pack. When used in its concentrated form, the product can cause car paint, finishes and glass to fade or dull
